## SIU Medical School Test To Indicate Entry Demand

Some indication of the demand for admission to Southern Illinois University's developing School of Medicine could come from a Medical College Admissions Test to be given at SIU's Carbondale Campus May 1.

The standard nationwide test is administered as part of entrance standards set by the Association of American Medical Colleges. The one coming up at SIU May 1 is for undergraduate students applying for admission to medical schools in the fall of 1972.

That is the date when SIU will accept its first class at Carbondale. It will be made up of seniors who will complete a final year of preparation on the Carbondale Campus before going to Springfield in 1973 for the final four years of clinical training. The SIU medical campus at Springfield is gearing up through St. John's and Memorial Hospitals, which will be the clinical-professional training base.

The MCAT test—open to anyone hoping to enter medical school anywhere—is just one of the criteria used in admissions. Others include pre-med transcripts, interviews and recommendations.

## GCHS Seniors May File Scholarship Applications

Senior students of Granite City High School who will graduate this year may apply for a scholarship from the Granite City Scholarship Foundation by obtaining an application packet from Miss Frances Lynch in the school library.

To receive an application students first must complete a short data form and return it to Miss Lynch, Roy McConkey or Miss Selma Nelson, counselors.

The completed data sheet and biography must be turned in to Miss Lynch or Mr. McConkey by Wednesday, May 5. No applications will be accepted after May 5. Recommendations must be sent to the Scholarship Foundation by Wednesday, May 12.

A section of the Foundation's by-laws states, "It shall be the policy of this organization to choose applicants upon the basis of financial need, scholastic ability and purpose of pursuing a collegiate education. The corporation shall give first consideration to students who are entering the freshman year of college."

**Eligibility Requirements**  
To be eligible for 1971 awards, applicants must be graduating seniors who establish financial need by filing a confidential statement completed by their parents to indicate family income, indebtedness, and the help that may be given the student.

This time should be discussed carefully with parents or guardians. If it is not possible to complete such information, interested students should discuss their situation with a guidance counselor.

File a completed application blank indicating interests, plans and accomplishments.

Write a theme of not more than 350 words explaining why college is important in the life goals of the applicant.

Secure references from two persons who know the applicant well and from three teachers familiar with the high school work of the student.

Any applicant that receives a scholarship from the Foundation must use the scholarship award on or establish his intent to use the scholarship by June 30, 1971.

Awards from the Foundation frequently are made for use in tuition. Tuition scholarships students may receive from other sources.

Since its beginning in 1955, the Foundation has made awards to more than 225 students totaling more than \$110,000. Twenty-seven awards amounting to \$10,800 were given to members of the 1970 senior class. The Foundation was organized several years ago by Civic organizations in our community to raise money to help these students attend college.

## Plan Peanut Sale to Pay 'Y' Memberships

"Earn a YMCA Membership" campaign will open tomorrow with the sale of Adams & Brooks butter offset peanuts to youngsters who want to join the "Y" or extend their present membership. It was announced yesterday by Chuck Hasse, youth director.

A 14-ounce can will sell for \$1 and the salesman will receive 36 cent credit for each sale to be used towards the membership. A full-year youth membership costs \$18 and would require the sale of 50 cans. Teen Town members would have to sell 35 cans each to earn a membership.

Pick-up time for obtaining the peanuts will start at 9 a.m. Friday. Parents must accompany the children to sign a permission slip for the youngster to sell.

## Two From Area Indicted in Income Tax Cases

Harold C. Haycraft, 55, Meadown, Ill., former tax collector for Fort Russell township in Madison County, and Richard G. Wooley, Lockhaven, Ill. Lane, 44-year-old plant manager of Ferro Processing Corp., Granite City, were named in indictments returned by a federal grand jury at Springfield yesterday.

Haycraft and Wooley were charged with attempted evasion of income taxes.

Haycraft is the husband of Bessie B. Haycraft, former deputy tax collector of Fort Russell township who was indicted on similar charges Feb. 17. Mrs. Haycraft pleaded not guilty to the charges Feb. 25.

J. G. Philpott, district director of Internal Revenue for central and southern Illinois, said Haycraft has been charged in a four-count indictment with attempting to evade and defeat a large part of his and his wife's income taxes for the calendar years 1964-1967.

The indictment charged Haycraft reported joint taxable income for the four years of \$25,945.66, but that income totaled \$84,791.53.

Penalty for the charge is a prison term of up to five years and a fine up to \$10,000, or both, for each count of the indictment.

Mr. Philpott said Wooley has been charged in a three-count indictment with attempting to evade a part of the income tax due for 1964, 1965 and 1966.

The indictment charged that Wooley reported a joint taxable income for the three years of \$24,224.44, but that income for the three years allegedly totaled \$60,221. Wooley reported and paid a total tax for the three years of \$3,400.83, whereas the tax due totaled \$13,771.27, Philpott said.

The indictment charged that Wooley and Wooley are to be arraigned before the Federal Judge Omar Poos at Springfield, Ill., next Wednesday. The cases were presented by Frank J. Violanti, United States Attorney, for the Southern Judicial District of Illinois and was based on evidence developed by special agents of the Intelligence Division, Internal Revenue Service.

### Clerks Meet Today on Exemption Problem

Miss Eulalia Hotz, Madison County clerk, was meeting in Springfield today with other members of the Illinois Association of County Clerks and Recorders to discuss procedures for extension of tax rates under a Supreme Court ruling which outlaws Household Exemptions granted in the 1970 assessment roles.

The Supreme Court has ruled the exemptions violate the equal practice act. Legislation is pending granting the exemptions under the 1970 constitution, but this would not authorize the assessment reductions for the 1970 tax year which were authorized by legislation adopted under the 1870 constitution.

Miss Hotz said if the high court ruling is applied Madison county assessments would have to be revised, a procedure that would delay completion of the tax books this year by six months.

**Slids on Snow.** The auto of Harry J. Brandt, 2889 Indiana Ave., slid on snow in the 200 block of McCambridge Avenue at 7:45 a.m. Monday and struck the rear of the auto of Linda S. Helweg, 910 Spruce St. Both autos sustained minor damage.

tax books this year by six months. Clerks of seven northern Illinois counties, meeting early this week, decided to allow the exemptions under the 1970 constitution, but this would not authorize the assessment reductions for the 1970 tax year which were authorized by legislation adopted under the 1870 constitution.

Miss Hotz said if the high court ruling is applied Madison county assessments would have to be revised, a procedure that would delay completion of the tax books this year by six months.

OVERSEAS DELIVERY AVAILABLE

25 years of hard labor for \$1845\*

This year, everybody's introducing a new "Volkswagen-sized" economy car.

So not to be outdone, we've done the same.

Except, of course, we didn't have to start from scratch.

For years, while everybody else has been jumping from model to model and worrying about looks, we've stuck with our original and improved the way it works.

And so today, while cars may not look like the newest economy car, it's the most developed.

It's the only one with a sealed steel bottom. To protect its insides against just about everything outside.

The only one with an air-cooled magnesium-alloy engine. To eliminate boiling over and freezing up.

And the only one with a free electronic diagnostic system. To spot problems early and actually help extend its life.

Best of all, even with all this, our new economy car costs only \$1845\*.

So, compared to all the others, even if it doesn't look the newest, maybe now it looks the best.

## Big, Small State Cage Tournaments in Offing

By PETE BROWN  
SIU News Service

A certain funeral tone underlay the customarily wild counterpart of this year's Illinois State High School Basketball Tournament. That's because to all those upper-case letters will be added three more next year—class A and class AA, or something like that.

Much to the anguish of most sports writers and, from what can be heard, a good number of fans, they're going to make the annual extravaganza a two-class affair.

The little schools will play for one state championship and the biggies will play a week later for another one. The cutoff line is 750 students.

Which means no more Hebron (all hall, Judson twins), no more Shawneetown Sagas or Cobden Crusades, and certainly no more Pinckneyville Power Plays (the Pinckneys went the distance against the biggies).

**Odd Shifts of Power**  
Just what's going to happen in Southern Illinois, southwest?

Based on enrollments reported in the 1970-71 Directory of Illinois Schools, some odd shifts of power may be in the offing—if you wish to consider "big" or "small" school touring classifications as an index of power.

## Ducks, Geese Migrating Over State Flyways

Thousands of ducks and geese have begun their migration from southern wintering grounds, according to George Arthur, chief waterfowl biologist for the Illinois Department of Conservation.

Although most of these geese sighted so far have been Canada geese, according to George Arthur, chief waterfowl biologist for the Illinois Department of Conservation, a flock of several thousand blue and snow geese resting and feeding near Havana.

Blues and snows of this number are uncommon in the Illinois flyway. Generally only a few hundred blues and snows pass through this area during the spring migration months.

Bellrose said the last time blues and snows of this number passed through Illinois was 1967, when about 7,000 were sighted.

Game biologists at the time hoped the birds' would be imported to the area and adopt the route for their migration. However they did not return in the fall.

The geese left Havana last week and were reported heading in a northeasterly direction toward their Canadian nesting grounds. Most of the blues and snows have been wintering in the past years near Squaw Creek in western Missouri.

Department law enforcement officers are in full force along the flyway to guard the geese and ducks against any illegal spring shooters.

## GC Sophomore at Loyola is Delegate To 1971 White House Youth Conference

Miss Margaret Hall, 2407 Edison Ave., a sophomore at Loyola University in Chicago, will serve as a delegate to the 1971 White House Conference on Youth.

Miss Hall is among 1,500 delegates selected on the basis of their background and experience to represent the views of certain segments of American society on issues to be reviewed at the conference.

Ten major topics head the discussion agenda: foreign relations; environment; race and minority relations; education; drugs; poverty; legal, rights and justice; economy and unemployment; values, ethics, and culture; and national services, the draft, and its alternatives.

Miss Hall will be working primarily with the Conference's Task Force on Poverty. "Last August," she explained, "the government appointed a task force to study the problem of 7-10 people to prepare a report on poverty." This group interviewed people of all backgrounds throughout the country and conducted hearings in several large cities to gather opinions, ideas, and recommendations for eliminating poverty in America.

**Efforts Misdirected**  
"The task force on poverty believes that current federal efforts to help the poor have been misdirected," she said. "Attempts have been made to eliminate the symptoms of poverty, not its cause."

She reported that the group: 1) believes that the United States is capable of eliminating poverty; 2) questions the validity of "official" criteria used to measure and define poverty; 3) disagrees with the conclusion that poverty has been significantly reduced during the

last decade; and 4) maintains that poverty can actually be reduced only if national resources are committed to its elimination, economic reforms are implemented, and poverty-perpetuating institutions are abolished.

"My job at the Conference," Miss Hall said, "is to say what I think about this report, to say what I think about the task force's recommendations, and, most importantly, to bring ideas from the community to the Council."

**Requests Opinions**  
For this reason the requests opinions, suggestions, and additions to the following preliminary recommendations of the task force:

1. Guaranteed income, including the elimination of food stamps and all other substitutes for cash, and work incentives;
2. Comprehensive health services, guaranteed to everyone with a legal right with no eligibility requirements;
3. Reorientation of federal

housing programs to focus on the needs of the poor.

4. Voluntary public service, work, and learning programs, in which youth will devote time to the wars on poverty, disease, illiteracy, pollution, etc.

5. Funds for compensatory and remedial education should be developed for a culturally pluralistic.

Also, at least \$100,000,000 should be allocated from the budget of the next fiscal year for "higher risk" and drop-out programs at the college level.

6. The Appalachian coal industry should be either "Appalachianized" or nationalized and strip mining abolished.

7. A national youth recreation program, established and funded by Congress, with all its proposals originated by poor youth for their own neighborhoods.

Anyone with comments and recommendations for these proposals, and suggestions for other proposals, should contact Miss Hall at 876-0165 anytime before Monday.

## Penalty Imposed on Unpaid Income Tax

A penalty may be imposed on income tax unpaid by April 15, according to the Internal Revenue Service for Central and Southern Illinois, said today.

The penalty, enacted as part of the Tax Reform Act of 1969, is one-half percent for each month or part of a month the payment is late, but the total penalty is limited to 25 percent. Mr. Philip said, "It does not apply to estimated income tax or the period covered by an extension of time to file the return."

Mr. Philip said that if the taxpayer can show the failure to pay timely is due to reasonable cause and not willful neglect, the penalty will not apply.

The penalty is in addition to the regular interest charge of a percent per annum on late payment of taxes.

## Southern Illinois Methodists Buy \$21,000 Plane for Congo Mission

The United Methodist Southern Illinois Conference this week completed arrangements for purchase of a \$21,000 Cessna 180 aircraft, fully equipped for service in the Congo mission field in Africa.

The aircraft will be assigned to the Rev. William Davis, denominational career missionary in the Congo, who has received heavy support for many years from a number of conference churches.

The Rev. Boyd Wagner, Granite City pastor and chairman of the conference Board of Missions, through whose efforts churches and individuals contributed to the purchase, said

aircraft delivery is expected May 16. Rev. Wagner said the aircraft will be on display at Olney in the first week in June, during the conference's annual session.

Tour by Bishop Webb The conference accepted purchase of the aircraft as an advance special ("extra-mile" giving) after Bishop Lance Webb of Springfield visited the Congo in 1970 and became interested in the work of veteran missionary bush pilot Davis.

On hand for the final paper work at Walsen Aviation, Inc., Civic Memorial Airport, regional Cessna dealer, was the Rev. Fay Smith, Springfield,

Ill., United Methodist medical missionary pilot in Botswana, Africa, whose Cessna 180 aircraft is the same model purchased for the Congo service. William Tumbleson, vice-president and general manager of the Cessna dealership in Alton, completed the purchase arrangements with Rev. Wagner.

Rev. Smith's aircraft was purchased in late 1970 by the church's Central Illinois Conference. Earlier in the year, Walsen Aviation had sold a third Cessna 180 to the Rev. Kenneth Enright, flight colleague of Rev. Davis in the Congo.

## Snowstorm Ties up Traffic, Causes Rash of Accidents

A spring snow storm that brought from six to seven inches of snow to the Quad-City area Monday night and Tuesday morning tied up traffic during the early morning hours Tuesday and resulted in a rash of traffic accidents.

Many workers were from an hour to two hours late for work because of slippery highways. Snow packed streets and roads slowed traffic to a crawl. At one point Tuesday morning double lines of cars, bumper to bumper, extended from the Cambridge Avenue viaduct in Madison to U. S. Business Route 40.

Many minor accidents occurred throughout the area. Loretta A. Phillips, 29, of Collinsville, driver of a school bus, was momentarily distracted when children threw snow into the bus and allowed the bus to veer toward the other lane of Business Route 40 and Anderson Street in North St. Louis Township at 3:50 p.m. Monday. As she applied the brakes the bus skidded, striking a car driven by Joseph L. Roberts, 2729 Dale Ave. Both autos were damaged.

The auto of Karen S. Grey skidded on the slippery pavement on Madison Avenue at 22nd Street at 9:05 a.m. Monday and struck the rear of the stopped auto of Corbin B. Stambaugh, 2729 Dale Ave. Both autos were damaged.

Abraham Kambarran, 2682 Madison Ave., told police his auto skidded into the auto of Ronald R. Hall, 2504 Popes Ave., at 7:35 a.m. Tuesday on a parking lot at 27th Street and Madison Avenue. Both cars received minor damage.

State police said Roberts received minor injuries but was not hospitalized.

Believe it or not—the things you intend to do won't put a cent in your pocket.

A Bi-State Transit Co. bus, driven by Charles L. Keller, Sr., trying to get clear of a snowbank on Fehling Road near State Street, slid sideways and struck the parked auto of Herb Johnston, 3145 Fehling Road, at 6:45 a.m. Tuesday.

The underframe of the auto of Jane Ann Allen, St. Louis, was damaged when she drove over the concrete median on Nantoni Road at the entrance to the Bellemore Village Shopping Center at 3:30 a.m. Tuesday. She told police she could not see the divider because of snow piled over it.

The auto of Karen S. Grey skidded on the slippery pavement on Madison Avenue at 22nd Street at 9:05 a.m. Monday and struck the rear of the stopped auto of Corbin B. Stambaugh, 2729 Dale Ave. Both autos were damaged.

Abraham Kambarran, 2682 Madison Ave., told police his auto skidded into the auto of Ronald R. Hall, 2504 Popes Ave., at 7:35 a.m. Tuesday on a parking lot at 27th Street and Madison Avenue. Both cars received minor damage.

State police said Roberts received minor injuries but was not hospitalized.

## Replaces \$20,000 Aide

Rose replaces a \$20,000 a year man who was fired after a month as being Blair's aide. Senate President Pro Tem Carl Albert, D-Chicago, has an aide who does some public relations work. But the aide mainly works with Senate committees on local government and judiciary. He earns \$18,000 a year.

Blair said he hired a press aide because "in visiting with speakers of other states, I learned they provide an information staff of new people for the use of the members."

He said there are a great amount of stories the people of the state are interested in and the press aide is hired to assist legislators in getting out these stories.

In a month Rose has been on the Speaker's payroll the only release issued to newsmen that carried his name were releases from W. Robert Blair.

## MORE ABOUT Tax Rate

less than the amount levied by the city as its tax needs for the year.

The new rate includes 15 cents per \$100 assessed valuation for fire protection, 10 cents for garbage collection and 6 cents for street and bridge purposes, all unchanged from last year's rates.

The rate for street lighting purposes was increased 4.44 cents from 3.57 cents last year, but the rate for bonds and interest was fixed at 9.55 cents, down from the 1969 rate of 13.67 cents. The rate for municipal retirement contributions is 4.65 cents for 1970, compared with 3.57 cents in 1969.

Council members approved Monday night the voting by affidavit for Tuesday's city election of residents in Norwood Terrace subdivision after a delegation from the neighborhood appeared at the council meeting to protest the probability that they would be unable to vote in the city election.

**Annexation Not Certified**  
A letter pointing out that the subdivision was annexed by the city last August, but that the annexation has never been certified by the county clerk's office at Edwardsville because regularly filed plans and surveys have not been filed was presented to the council as a communication.

Mrs. Pearl Guenther, 1405 Norwood Drive, who was given permission to address the council, said that representatives of the group had been told at the county clerk's office that they were not eligible to vote in the city election because the annexation had not been finalized.

Council members pointed out, however, that the city election was conducted by city officials and not by the county clerk. Mayor Donald Partney, City Attorney Leon Scroggins and the aldermen agreed the residents of the annexed area could vote in the city election by affidavit.

Scroggins said he instructed the city clerk to complete the job of acquiring necessary plans for filing at the county clerk's office.

In other action, the council authorized Mayor Partney to check into several outside dog control services, including the Madison County Rabies Control Unit, in effort to reduce the large number of stray dogs running loose in the city.

Several aldermen complained they were unable to reach the humane officer or his assistants at the animal shelter. The council approved a motion that all aldermen be furnished with the home phone number of the humane officer or assistants who can be reached in time of emergency.

The council granted a request for a permit to conduct a sympathy march for Lt. William Calley at 1 p.m. Saturday. The march will originate at the city hall.

## MORE ABOUT Portell

by a vote of 83 to 67. Gordon won in precinct 28 by 48 votes, 184 to 136, and one precinct 31, but only by one vote, 136 to 135.

In Ward Four, it was an unlucky precinct 13 for Joseph Kastelic, who, led the race in the first five of the six precincts to report. He was upset by precinct 13's last minute rally, a vote of almost 340-1 for incumbent Alderman Claude Green.

## Wins Three Precincts

Kastelic won in three of the Ward's six precincts. With only precinct 13 remaining, Kastelic was leading 441 to 424. The vote in precinct 13 was 179 for Green to 71 for Kastelic. Precinct 13 was second to last of the 31 precincts in the city to report.

Green also was the victor in the 14th precinct, 164 to 95, and in the 16th precinct, 62 to 23. Kastelic won pluralities in the 15th precinct, 142 to 105; the 17th precinct, 38 to 33, and the 18th precinct, 120 to 60. A third candidate, Walfie F. Camphor, collected 277 votes in that race.

Parmley won in all three of the ward's precincts. In 24 he was the victor 183 to 115, in 25 he defeated Crider 229 to 189 and won in precinct 26 by 69 votes, 283 to 216.

The final vote in that ward was Parmley 667, Crider 520.

## Boyd Re-Elected

In Ward Three incumbent Clyde Boyd defeated E. Jerry Walker, 490 to 353 to retain his seat on the city council. Boyd won three of the ward's four precincts but lost in precinct 12 by 88 to 109. In the ninth precinct, Boyd defeated Walker 188 to 66, won in the 10th precinct 108 to 84 and in the 11th precinct was victor, 106 to 84.

In the First Ward, incumbent Everett Morlen soundly defeated Lerone Mangiaracino and Gene Burnett to retain his position. Burnett, however, had withdrawn from the campaign.

Morlen was the first of the candidates in the city clerk's office, where the official votes were tallied, to light his victory cigar. Slightly more than one hour after the polls closed, three of the four precincts in his ward clinched his victory.

The final vote was Morlen 506, Mangiaracino, 245 and Burnett 36.

Morlen was the victor by all four precincts, most by wide margins. His strongholds were precincts three and four where he topped Mangiaracino 179 to 62 and 99 to 13, respectively. In precinct one he was the victor 79 to 41 and in precinct two 149 to 129.

In the Second Ward, Alderman Sam Whitmer was re-elected to a fifth term on the council as he defeated Chris W. Von Nida, 714 to 336. In Fifth Ward Alderman Walter Nomm made the strongest showing of the city election, defeating Willie J. Bailey, 1096 to 132 for his eighth consecutive term on the council.

Nomm's largest margin came in precinct 23 where he won by a vote of 599 to 43. In the 19th precinct he won 116 to 14. In the 20th the vote was 45 to 8, in the 21st he was the victor 144 to 24 and the 22nd precinct Nomm collected 192 votes to Bailey's 43.

Only seven write-in candidates names appeared on city ballots for a total of 12 aldermanic votes. The strongest of the write-ins was Glenn Romine who polled 8 votes in precinct 15 of the Fourth Ward. Two candidates were written in in the eighth precinct of Ward Two, Jack Perkins and John Remler. Perkins collected two votes in that precinct and Remler had one. The name Bromley was written in in precinct three, Green appeared in precinct 20, George Velazquez received a vote in precinct 22 and Donald Jones was written in in precinct 23.

The 7:30 ceremony was performed by the Rev. Paul Surbey before the altar adorned with arrangements of white flowers and greenery.

Mrs. Irene Barrick presided at the organ and accompanied the soloists, Mrs. June Branding. The bride wore a traditional gown of light candlelight peach color designed with a high cut, oval neckline embroidered with Alencon lace appliques headed in pearls and scattered on the Empire bodice and on the long tapered sleeves. The same motifs were applied on the Avine skirt and attached train.

A headpiece of petals of lace and pearls secured a short, bouffant veil. The bride held a cascade arrangement of white Elegance carnations and ivy centered with a corsage of cymbidium orchids.

Mrs. Ann Hotson, a sister-in-law of the bride, was matron of honor, and Mrs. Peggy Bischoff, the bridegroom's sister, served as bridesmaid. The bride's daughter, Karen Wilson, was flower girl.

All three attendants wore long-sleeved satin-faced organza gowns with vested top boleros to form the peasant look. They were of moss green Venice lace, and lace cuffed the long bishop sleeves. They were formal length. Headpieces were of moss green lace entwined bows and brief veils. They carried white daisy pompons and yellow roses.

Bobby Vogele carried the rings, and William Logan Jr. served as best man. Other attendants were Larry Carl, groomsmen, and Albert Taylor and Michael Johnson, ushers.

#### Planned at Eastern

A new English course, "Studies in Black Literature," will be offered for the first time during the summer quarter at Eastern Illinois University.

The course, English 432, will be open to juniors, seniors and graduate students and may be taken twice for credit. Roger Whitlow, instructor, explained that English 432 is designed as a "studies" course and a different topic will be used each time it is offered. ## Carl Ranft On Board Of Illinois Bottlers

Carl A. Ranft of Granite City was elected an honorary board member of the Illinois Bottlers Association at its convention in Chicago which ended yesterday. Mr. Ranft also was awarded a plaque in appreciation of his 20 years of service as Treasurer and Director of the organization, and also as a past president of the organization. Mr. Ranft is manager of the Tri-City Regional Port in Granite City. Major business at the convention which was attended by more than 400 bottlers and suppliers, was the adoption of a new constitution and by-laws which changed the name from the Illinois Bottlers Association to the Illinois Soft Drink Association.

The convention program featured a panel of experts discussing today's environmental problems in a workshop session. Speakers included: William Miller, vice-president for production of the RC Cola Co., Columbus, Ga.; Robert Blair, speaker of the Illinois House of Representatives; Ben Benar, general manager of the Paper Board Division of Mead Packaging Co., Atlanta; Walter Bruce of the merchandising staff of Jewel Super Markets; Hale R. ## MORE ABOUT

### Story of Easter

Some have turned down the opportunity. "For me, dancing in church would be merely a religious expression, not a religious expression," one student explained.

### Worshipful Movement

Tyrene Howze of East St. Louis, who is studying for the ministry, agrees with Wiltz that dancing is one of the greatest expressions of worship. "When I dance," he says, "I am using my whole body in worshipful movement to God. Some ministerial students don't understand, but to me this is an exciting new experience."

"It is also new to the church audience, but I believe society as a whole is broadening its horizon and beginning to accept the concept of dance as a religious form of worship."

"There is nothing really new about dance as a form of worship," Wiltz points out. "It goes back to the medieval days in Europe when ceremony and processions were part of the liturgy."

"Primitive peoples had their ceremonial or ritual dances. American Indian dancing is ritualistic and ceremonial in nature, expressing prayer for success and thanksgiving for victory in time of war, or for driving away evil spirits."

"Dancing as a social activity and a form of entertainment is of relatively recent origin," Wiltz says.

Dr. Ann Bachelier of O'Fallon feels "the more persons who see dancing, the more it will be understood as a means of religious expression. Some see a dance concert in church who would not otherwise have this opportunity."

## Collide in Madison

The southbound auto of Richard Shelby, St. Louis, changing lanes from the outside to the inside lane in the 500 block of McCambridge Ave., Madison, collided with the auto of Norma Ridge, 2540 E. 27th St., southbound in that lane. The right side of the Ridge auto and the left front of Shelby's car were damaged.

Miss Bachelier says she thinks the congregation enjoys the dancing, but adds, "They aren't sure whether they should applaud after a performance, but they do."

### Poetic Abstraction

"Not all of the dances have been specifically designed for church," Wiltz explains. "Some are theatrical but have moral or religious overtones. I choreograph dances in such an abstract way that they are merely poetic allusions for the viewing audience."

"Dance as an expression of worship can be merely a sound of joy to be alive, to be able to move."

Wiltz's ultimate goal is to have congregational participation in our liturgical expression, we dance in the aisles, the vestibules, in all the church space available. Sometimes we are beside the congregation, sometimes behind it. We hope the members look around and become aware of the space they call their church."

Diane Davis of Ferguson, Mo., says, "Dance adds so much to the atmosphere of the church. To be meaningful, there needs to be life in worship. It should be more than people sitting."

"When we bring movement through dancing, the congregation and the church service come alive."

## \$125,000 Granted in Good Samaritan Suit

Federal District Court Judge Omer Poos has entered a judgment of \$125,000 against Illinois Bell Telephone Co. in favor of a "Good Samaritan" represented by William Schooley, Granite City attorney, in Springfield.

The findings of fact written by Judge Poos showed that Mrs. Margaret Childs of Alton sustained various back and spinal injuries sustained after a storage mail box weighing about 200 pounds fell on a girl, 6, who had been playing near the box in an Alton residential neighborhood July 7, 1967.

Mrs. Childs, who weighs 100 pounds, lifted the box for three-to-five minutes until help arrived to rescue the girl. The girl sustained her back, causing hospitalization on two occasions since and has left her disabled and unable to work to support her three children.

According to the court document, the utility had moved the box while installing a new pole in the immediate area and had failed to anchor it when returning it to its original position, leaving it wobbly, and that postal employees had failed to report the condition of the box to their superiors. Court costs are to be determined Monday in Springfield.

### Girl, 15, is Critical

A 15-year-old Granite City girl is in critical condition at Barnes Hospital, St. Louis, after apparently taking an overdose of pills Monday evening. She was taken to St. Elizabeth Hospital at 10:30 p.m. Monday and was transferred to the St. Louis Children's Hospital, later being taken to Barnes.

## Tiny Tim Pre-Schoolers Learn Planting Expertise from GC Club

A noisy, happy group of youngsters had their first taste of indoor gardening yesterday at the Tiny Tim Pre-School Center, located at Central Christian Church, 2000 Johnson Road.

The center, sponsored by the Eastern Seal Society of Southwestern Illinois, has children enrolled with various handicaps for specialized educational therapy. Their ages range from 2½ to 5 years. End they came to the center from different communities in Madison County.

A venter of rich dirt covered long work table as the youngsters, full of enthusiasm, were shown how to plant tomato seeds by members of the Gardeners Club of Granite City.

The children will tend the seedling plants and, hopefully, watch them grow during late spring months.

Assisting the project chairman from the Gardeners were Mrs. Ruth Malottki, club president, Mrs. Charles Kohl, Mrs. Loretta Farrell and Mrs. Lorraine Elmore. Mrs. Susan Sheeley, who is in charge of the local Tiny Tim Pre-School Center, also participated in the gardening project.

Services provided by the Eastern Seal Society of Southwestern Illinois in this area, in addition to the pre-school center, include speech, occupational therapy on a consultant basis, equipment loan at no cost to the individual and referral services.

The society's annual drive for funds concludes on Easter Sunday.

## Candlelight Setting for Spray-Teetor Wedding

The wedding of Miss Patricia Teetor, a daughter of Mr. and Mrs. John O. Teetor, 3005 Lincoln Ave., and Gary L. Spray, 2335 Lincoln Ave., was celebrated April 2 at Trinity Tabernacle.

The Rev. C. M. O'Guin officiated at the evening service and a reception was held afterward in the church Fellowship Hall.

Gladioli, mums, daisies and emerald foliage provided the setting for the ceremony and white roses and candles marked the family pews.

The bride was given in marriage by her father. She wore a floor-length gown of white organdy. The Empire bodice of Chantilly lace had long, full sleeves and a scoop neckline.

A full, crown trimmings with lace fell from the waist and a lace headpiece held in place the bride's tiered veil of illusion. She carried a crescent bouquet of white carnations, daisies and yellow roses.

Mrs. Gracelin White was matron of honor, serving with Mrs. Joyce Pryor, an aunt of the bride, and Miss Cindy Cross, bridesmaids, and two junior maids, Sherry Pryor and Terry Peck, cousins of the bride.

The attendants were dressed in gowns of dotted Swiss, yellow for the matron of honor, and for the maids in blue and green.

They were made with Empire bodices and mock weskits trimmed with daisies. Picture hats matched the gowns and they held colonial bouquets of daisies and pompons in complementary colors.

Leslie Jo Spray, a sister of the bridegroom, was flower girl, and Vincent Adams served as ring bearer. The former carried a basket of daisies.

Attending the bridegroom was Charles Adams, best man, and Mike Davis, Bruce Baumberger, Steve Teetor, and Rick Peck, groomsmen and ushers. The candles were lighted by Gail Spray and Hal Salmon.

Mrs. C. M. O'Guin played the wedding marches and Charlotte Hainey accompanied the soloist, Mrs. Loretta Bradford, as she sang, "Because." "Hawaiian Wedding Song"; and the Lord's Prayer.

The bride's mother was dressed in mint green and the bridegroom's mother chose a pink suit. Both had rose corsages.

newlyweds are residing at 1938 Fifth St., Madison. Both young people are graduates of the Granite City High School.

## 3 Local Youngsters Make Debut in 'The Music Man'

Three Quad-City youngsters will make their debut in leading roles when the East Bank Players present their third musical production, "The Music Man," on two consecutive week-ends in late April.

Featured in the leading girl's role of Amarilla will be Bonnie Luebber, 8-year-old daughter of Mr. and Mrs. Richard Luebber, and Becky Sage, 10-year-old daughter of Mr. and Mrs. William R. Sage. The pair will alternate in the part during Friday and Saturday performances. Mrs. Millie Hoensch, director, explained.

Becky, a fifth grade student at Nedringhaus School, sings in the St. John United Church Youth Choir and has modeled for Six, Baer and Fuller department stores.

Additionally, the youngster takes ballet, tap and piano lessons. The occasion marks her first role in a theatrical presentation other than school plays.

Bonnie also studies dancing, piano and organ. She is a fourth grade pupil at Frohman School and a member of the Starfinders, a children's theatre group sponsored by the Frohman School.

She appeared in the chorus of the Starfinders' production, "Tom Sawyer" and also portrayed the "Balloons Girl" in the Players' musical, "Gypsy."

Problem Role Filled Portraying the part of Winthrop, described as "a shy boy with a thump," has presented interesting problems for Brian Beljanski, son of Mr. and Mrs. Joseph Beljanski, the director noted.

The young man, a student at Nameoki Grade School, is required to sing two solo numbers in "The Music Man," using a "lisp," a speech impediment he does not possess.

To acquire the temporary imperfection, Brian has been working very hard on the characterization, Mrs. Hoensch said.

Brian is a member of Boy Scout Troop 5 and at Christmastime presented a solo in the Nameoki School holiday program, singing the number in German.

"The Music Man" will be presented in the Grand Ballroom of the Granite City Elks Club, 1329 Niedringhaus Ave., on Friday and Saturday, April 23-24 and April 30-May 1. Curtain time for all four performances is 8:15 p.m.

## Press-Record Youth Focus

**SPELLING BEE PARTICIPANTS** at the Knights of Columbus contest included, left to right, Timothy Gruber, the winner; Jack Mulach, Miss Helen Kuenstler, Susan Huber, runnerup, Fred Noeth, Susan Wells, third-place winner, and Ed Gonwa.

### Timothy Gruber Wins Spelling Bee

Timothy Gruber, eighth grade student at St. Joseph's School, Margaret Mary's School, won the annual Knights of Columbus spelling bee April 2 at the K. of C. Club. About 100 persons attended the event. He is the son of Mr. and Mrs. Adolph Gruber, 1106 Twenty-fourth St. His name will be engraved on a traveling trophy which the school will hold for a year.

The runner-up was Susan Huber, daughter of Mr. and Mrs. Alvin Huber, 2440 Wilson Ave., an eighth grade student at St. Mary's-St. Mark's School.

The top two will represent the area in the Madison County K. of C. spellingdown to be conducted later this spring. The top three were presented with Webster's dictionaries by the Press-Record and individual trophies by the council. All of the 10 contestants were given hall point pens through the courtesy of the Pieper Funeral Home.

Miss Helen Kuenstler, head of the English department at Granite City High School, served as enunciator. Judges were Ed Gonwa, principal of Lake School; Jack Mulach, principal of Maryville School; and Fred Noeth, principal of Washington School. Chairman of the event was John Tritsch.

## Summer Job Program For 80 Youths Planned

Summer employment prospects for in-school youth in Granite City were boosted today with the announcement that a cooperative job opportunity program again will be sponsored in the community.

About 80 boys and girls, 16 years and older, who plan to return to high school in September will find jobs available through the "Mayor's Summer Youth Employment Program," it was announced.

For the sixth consecutive summer, the project will be co-sponsored by Mayor Donald Partney, the Neighborhood Youth Corps and Coordinated Youth Services.

Those eligible for employment through the NYC-funded program are youngsters who meet guidelines set forth by the Office of Economic Opportunity, Mayor Partney and Mrs. Lillian Douglas, a CYS staff worker, explained.

#### Jobs Sought

Job spaces for the local teenage residents currently are being sought from area churches, welfare agencies, institutions, public housing and parks and similar segments of the community.

Prospective youthful applicants may call the CYS office, at 876-2383, for information relating to necessary qualifications or for an appointment to complete the job application forms, Mrs. Douglas said.

The in-school employment program will start at the end of the present school year in mid-June, the CYS adviser said. Those enrolled will work for 10 weeks and receive \$1.00 per hour. The hourly wage scale has been increased 15 cents over the 1970 summer rate, she noted.

In previous years, the youths worked a total of 26 hours weekly, however, precise work hour units have not yet been set, it

was learned. A similar number of hours is expected, Mrs. Douglas said.

#### 80 Participants in 1970

Last summer, about 80 boys and girls took part in the pro-

gram which assigned many youthful workers to tasks, under direct supervision of adult leaders, in various city departments, at St. Elizabeth Hospital, the library, YMCA, park district, local churches and agencies.

A major portion of the program funds is furnished by the NYC, a project of the Bureau of Work Training Programs under the U. S. Department of Labor operating in Madison and St. Clair counties.

Additional funds needed to reimburse an adult supervisor in one instance, or on occasions to provide equipment used by the youths in clean-up jobs were contributed by the city and the private sector.

Youthful job seekers are screened at the local CYS office with their application then for-

warded to the NYC office for approval, Mrs. Douglas explained. She pointed out the necessity of completing applications as quickly as possible to allow sufficient processing time.

Dolores Kula, 2443 Delmar Ave., a student at Illinois State University, is conducting her teaching internship at Elk Grove High School, Elk Grove Village. She is teaching sociology.

## Brownie Play Day Held At Cahokia State Park

A brownie play day was held at the Cahokia State Park April 3 for 145 scouts, leaders, and their guests of District 4, Neighborhood 3. A Brownie consultant, Mrs. Carmen Grider, assisted by Mrs. Faye Wentz and Mrs. Barbara Blackburn, coordinated the annual all-day event which had an Indian theme.

The brownies, dressed in traditional Indian fashion, arrived at the park assembly area for an outdoor flag ceremony conducted by Brownie Troop 198 before going into tribal units. The 12 units chose names such as Chiefs, White Feathers, Crows and Blackfoot in keeping with the program theme.

The morning included an arts and crafts session and each girl made 140 Indian articles which they "swapped" while a cook-out was being prepared. Each girl was presented with a necklace, crocheted headbands, made by Mrs. Pat Eaton and Mrs. Wilma Andrews, and other souvenirs of their "fun" day.

Kenneth Williams, an archeology student at SIU, conducted a tour of the museum and the park ground of recent diggings, noting the reconstruction underway. He explained several points of Indian lore. Later in the afternoon, the scouts were entertained by Frank Jockins-thaler and his troupe of Collinsville, which performed several authentic Indian dances.

Candy, drinks and other treats were provided during the entertainment and the program was concluded by singing Taps and retiring the colors. Neighborhood 3 association services scouts from Marshall, Niedringhaus, Sacred Heart and Webster Schools.

## State Officials Discusses Traffic Safety at Meet

"Drive carefully—automobiles are not the only things that can be recalled by their maker," Secretary of State John W. Lewis told members of the Illinois Youth Traffic Safety Conference at their eighth annual assembly during the weekend.

Emphasizing the theme of this year's conference, driver responsibility, Lewis said no really significant progress can be made in reduction of motor vehicle collisions until each individual driver understands and assumes his responsibility every time he drives.

"Lack of such responsibility may be one of the strongest contributing factors to the apparent apathy and indifference on the part of the general public," he said.

Lewis referred to a recent poll in which people were asked to list the top problems they face, and when the answers were separated into 16 categories, such things as inflation, pollution, war, taxes, student unrest, drugs and other things were among them, but none listed traffic deaths.

"This is a strange and puzzling omission, because death and injury on the highway are greatly exceeded and would cause a list of killed and wounded," he commented.

Lewis also pointed out that when motor vehicle manufacturers have recalled certain

models for correction of safety-hazard defects, 30% of the owners have either refused or neglected to have their vehicles repaired, even after repeated notices and at no cost to themselves.

"How's that for responsibility?" he asked.

Most drivers could do a better job of driving if they really tried, Lewis said, adding that he approves of plans now being developed to include safe driving practices and a handling emergency situations in the Illinois driver education curriculum.

## School Aid Up .78% in 2 Years with Income Tax

House Speaker W. Robert Blair said late last week that a study prepared by his staff assistant on education shows that general state aid to education in the 1969-1971 period increased by 78.7% over the previous two-year period.

In Madison County, average daily attendance went up 3% and aid rose 70%, or \$17,852,306. Blair said general state aid claims during 1969-1971 totaled \$1,255,040,000, compared with \$702,187,000 in the 1967-68 period. The increase totaled \$552,853,000. Statewide attendance increased 5%.

In addition, the categorical aids which include special education, transportation, driver education, school lunch, gifted programs, adult education and vocational education increased 64% over the same period. The total of these claims increased from \$107,430,000 to \$175,982,000 or \$68,552,000.

### Revenue from New Tax

"The study in general reveals the substantial effort that has been made by the state in school support," Blair said. "The increase in the state's contribution was made possible by the increase in revenue pro-

vided by the state income tax. "Legislators and the governor have been criticized in the past for permitting a new tax," he said. "However, this study shows conclusively that school districts throughout the state are benefiting from it."

"According to the study, state aid to education was increased significantly in every one of the state's 102 counties, despite the fact that in some cases the average daily attendance, on which the aid is based, increased only slightly, and in some cases decreased," Blair said.

The study was prepared by A. R. Evans, staff assistant assigned to the Education Committee.

Evans said the reason state aid increased, while attendance in some areas was down, was that there was a change in the formula's base.

In the 1967-1969 period, the state's contribution was based on a level of \$400 per pupil, while the level in the 1969-1971

period was raised to \$500 per pupil. A further increase was made in the 1969-1971 period, with the weighting of the attendance of state school pupils by the factor of 1.25.

There were two other reasons for general increases, he said. In 1970-71, there was an overall increase of 8% in the formula. And an "urban bonus" was added for 1970-1971, which amounted to a state contribution of \$28 million statewide for districts of over 10,000 enrollment.

## Highway Classification, County-City Bonds Recommended to Assembly by Commission

A comprehensive report on the current status of the state's highway system was submitted to the 77th General Assembly Thursday by the Illinois Highway Study Commission.

House Speaker W. Robert Blair, chairman of the Study Commission, said much of the information gathered by the commission during the past two years was used in the preparation of Governor Richard B. Ogilvie's transportation program.

Blair said the commission also is offering a number of recommendations to the General Assembly in an effort to continue the improvement of the state's highway system. These include:

—Adoption of functionally classified highway system to be effective July 1, 1972, and providing for a Highway Classification Review Board. (This would identify uses of highways, roads and streets to determine priorities for improvement.)

—Adoption of the philosophy of bond financing to supplement

current funds for accelerating state highway development.

—Authorization for counties to pledge full faith and credit to support locally issued road and street bonds.

—Creation of a State Department of Transportation to include specified agencies.

**Revenue for Highways**

—That highway user tax revenues be expended for highway-related purposes only.

—Limitation of increases in appropriations for agencies other than highway agencies legally deriving support from highway user funds.

—Employment of an unbiased outside agency to determine highway-related services furnished by agencies other than highway departments.

—That the Highway Study Commission scope include study of all transportation modes and that the name be changed to Illinois Transportation Study Commission.

On the later recommendation, Blair said a bill to change the name of the commission and to increase its areas of activity to

include all modes of transportation, including mass transportation, as an alternative to the use of highways, would be introduced shortly.

Blair said the commission would study "all aspects of developing, financing and utilizing public transportation, or mass transit systems, intercity or intracity, whether by street or highway, rail, water or otherwise."

**Urges Bond Issue**

He noted that a bill establishing a Department of Transportation (DOT), and companion bills, including one calling for a \$800 million bond issue to finance highway, mass transit and airport improvements, was introduced by him last week.

Financing of highway work, Blair said, is one of the most important subjects covered in the report.

He said the commission recognized that additional revenues provided by the previous General Assembly would be substantially sufficient to overcome state highway needs for the next 20 years. However, the present rate of inflation for highway construction, more than 5 percent annually, is increasing needs faster than they can be overcome at current expenditure levels.

**Recommend Credit Program**

After considering all options, Blair said, the commission is recommending that a credit financing program be adopted to accelerate a priority program over the next 10 years in accordance with the new constitutional provisions.

Blair said the priorities for work to be done on the state highway system for the period 1972-1982 include:

—Complete construction on 210 miles of Interstate highways.

—Reconstruct 3,160 miles of narrow, unsafe or otherwise critically substandard highways.

—Build 1,950 miles of supplemental rural and urban free ways. (The first phase of this work is to be financed by \$800 million of the proposed \$900 million bond issue.)

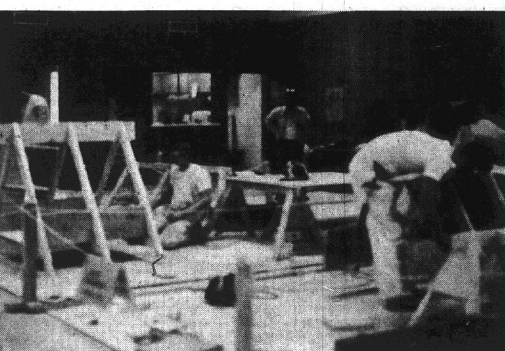

—Improve 881 miles of area development road.

The total 1972-1982 priorities program would cost \$7.09 billion, Blair said. It represents a substantial increase in priorities over the \$6.4 billion estimate given to the General Assembly in 1969. He said most of the increase is due to an increase in Interstate costs amounting to about \$268 million.

## Party Program 'Pyramid' Proposed to Provide Funds for River Festival

A plan to raise more than two-thirds of the funds needed for a 1971 Mississippi River Festival has been launched by the Pyramid Committee, a newly formed group of music-loving St. Louis area residents.

The Festival is in danger of extinction because Southern Illinois University-Southwestern cannot afford to subsidize it this year.

The fund-raising plan will involve 109,600 people of all ages on both sides of the river. People who have enjoyed musical evenings at the Festival will get together for luncheon, coffee, cocktails, sports, charades—any kind of social gathering.

Each party guest will contribute \$1 to the Mississippi River Festival and then host a party of his own, inviting one fewer guest than was at the party he attended.

The pyramid effect will begin within two weeks when eight initial hostesses each invite seven guests to a party. Each of the original 56 guests will contribute \$1 and invite six people to a party of his own—and so on down the line until the geometrical progression has resulted in 40,320 people each inviting one guest. With each person in the pyramid link contributing \$1, a total of \$109,600 will be raised for the Mississippi River Festival.

The Committee chose the

name of pyramid because contributions build up in pyramid form. The organization's initials also stand for "Play Your Role, Aid Music, Insure Dollars."

Each person who serves as a pyramid host or hostess is entered automatically in a drawing that will take place at the close of the six-week project. The grand prize is a round-trip vacation for two outside the continental United States, compliments of Maritz, Inc., and Maritz Travel Co.

Interested persons who are unable to serve as hosts or hostesses may help build the pyramid by contributing the amount of money that would

have been raised at their parties.

For information on holding a pyramid party or buying out a level of the pyramid persons may contact Mrs. Thomas A. Switzer, committee coordinator, at (314) 333-7225.

Pyramid's bi-state chairmen are Mrs. John W. Fries of Belleville, and Mrs. George A. Dickey of West St. Louis County.

## Week-Long Easter Events Continue

St. John Lutheran Church, 2001 St. Clair Ave., will continue to observe the Easter season with a series of special week-end services and events, the Rev. Samuel Boda announced today.

On Good Friday, the congregation will observe the memorial of the Lord's crucifixion and death with a vesper service at 7 p.m. In place of the usual sermon, a color filmstrip dealing with the crucifixion, entitled "Concern," will be shown.

Also on Good Friday, members of the congregation will participate in the annual Noonday Service at the Washington Theater, sponsored by the Lutheran Bureau with which the congregation is affiliated. The local pastor will serve as liturgist, with the Rev. Ronald Leach, of East St. Louis as featured preacher.

Special music will be supplied by Miss Heather Potter and Miss Margie Settemore who will sing "Saw Ye My Savior?" to the accompaniment of their guitars. Both girls are members of the congregation.

Easter morning will find the congregational members moving to the outdoors for the annual Easter Sunrise Service at the Wilson Park skating pavilion at 6 o'clock. Accompanying the singing of the worshippers at the 30 minute service will be a brass ensemble directed by John T. Severine Sr., chairman of the Lutheran Bureau, which is sponsoring the service. Another commissioner to the Bureau from the St. John congregation is Franklin Roberts.

The Festival Easter services at the congregation's Church sanctuary will take place at 10:30 a.m. when the pastor will offer "God's Son Has Made Me Free," by Greg. Accompanying the congregational singing will be John T. Severine and John T. Severine Jr.

The Sunday School and Bible class hour at 9:15 a.m. will be devoted to the blessings to be derived from Christ's victorious resurrection.

SNOW BROWNIES? Monday's snowfall failed to deter members of Brownie Troop 410 who continued with a planned Easter egg hunt in the snow covered yard of their troop leader, Mrs. Judy Donaldson, at 1536 Fifth St., Madison.

## Brownies Hunt Easter Eggs in Snow

The drastic change in the weather did not daunt the spirit of Brownie Troop 410 nor the leaders, Mrs. Judy Donaldson and Mrs. Ann Bernhardt, as the group held an Easter egg hunt in the snow storm, Monday afternoon.

The 25-member troop made plans for the egg hunt at a previous meeting and, instead of canceling the affair, dressed for the occasion and enjoyed the unique hunt. They met at the home of Mrs. Donaldson, 1536 Fifth St., Madison, and searched for eggs in the snow.

Those attending were Tammy Donaldson, Donna Bernhardt, Tina Taylor, Lisa Krieschok, Diana Wilson, Sherry Yeager, Vicky Patterson, Tammy Alsbury, Gerry Reed, Cathy Heil, Patty Topal, Susan Skinner, Tracy Champion, Cheryl Kositzky, Belinda Wright, June Bosworth and Susan Schaffner, who assisted the leaders.

## Group Attends Anniversary Event

Mr. and Mrs. Arnold Arbogast, Mrs. Herbert Gerbig, Mr. and Mrs. John Arbogast and children, Colleen, John, Kirk, Laura and Chris, have returned from San Pierre, Ind., where they attended the 25th wedding anniversary of Rev. and Mrs. John Minitz.

The event was held at St. Luke United Church of Christ, where Rev. Minitz has been pastor for the past four years. Before going to St. Luke Church, he served parishes in South Dakota, Nebraska and Dubois, Ind.

Mrs. Minitz is the former Barbara Arbogast, a daughter of Mr. and Mrs. Arnold Arbogast. The couple has five children, Mrs. Arthur Keller of Grissom, AFB, and Camela, Cynthia, Matthew and Bradley, all at home.

The celebration at the church was arranged as a surprise by the congregation, following the regular services on Sunday. A carry-in dinner was served and gifts were presented to the couple.

While away, the local residents attended the confirmation of Cynthia Minitz.

Mrs. Farrell and daughter, Peggy, a sister and niece of Mrs. Minitz, remained for another week in Indiana. Mr. and Mrs. Farrell had accompanied the party from here.

## Easter Music at First Assembly

Triumphant music of the season will be featured throughout the celebration of Christ's resurrection at First Assembly of God, 24th Street and Grand Avenue.

The Sanctuary Choir will begin with the Annual Sunrise Communion Service with a procession at 6:30 a.m. and sing "In Dark Gethsemane" prior to the distribution of the Communion Elements. Mike Rapoff, public assistant at the church, will deliver the meditation at the Lord's Table.

Following the early service, a continental breakfast will be served to worshippers in the Fellowship Room.

At 9:30 a.m. students of the Sunday School will bring their guests to share the Scriptural account of Christ's victory over death.

During the 10:45 a.m. worship, the combined choirs of the church will join in two of Luigi Zanielli's anthems, "Go Quickly" and "All the World is Bright." The Sanctuary Choir will present the 17th-century hymn, "The Stile is O'er" in a contemporary, new character setting, arranged by Norman Johnson. Pastor M. Allen Groff will preach at the morning service.

John Peterson's "No Greater Love" will comprise the 6:30 evening service. One of his best-loved works, the cantata will be enhanced by special lighting effects throughout the production.

The Rev. Groff and the church music department extend a cordial invitation for guests to join them for any or all of the day's observances.

The theme for the meeting was "Love Is Forgiving." The lesson was presented by Mrs. Wilma McQuinn, Mrs. Farrance and Mrs. Dorothy Johannmeier.

The birthday of Mrs. Farrance was celebrated, and Mr. and Mrs. A. C. Stover entertained the group with slides and a narration of The Passion Play at Oberammergau, Germany.

If you were going to design a lawn mower, where would you put the grass catcher?

On the right side, so it bumps into whatever's sticking up on your right? On the left side, so it does the same there?

The fact is, most grass bags are afterthoughts. They stick out to one side. They simply weren't designed to be part of the mower.

The Snapper V-21 or 18 has its grass bag between the handles. You can close-

trim on both sides, and vacuum your lawn while you're mowing. And the bag holds three times as much grass. We designed it that way.

In fact, all the good things about Snapper V-21 or 18 are logical. The result of sound design and planning by people who make lawn equipment and only lawn equipment. Not afterthoughts.

## Sharon Kay Lacquement, James J. Corbett Wed

Just announced is the wedding March 20 at First United Methodist Church in Collinsville of Miss Sharon Kay Lacquement and James J. Corbett.

The bride is a daughter of Mr. and Mrs. Joan P. Lacquement of Collinsville. Mr. Corbett's parents are Ernest I. Corbett of Belleville, and the late Rosemary Jane Corbett of Belleville, former Granite Cityans.

The Rev. Billy G. Hahn officiated at the afternoon ceremony and a reception was held at the church.

A gown of silk organza with an Empire bodice was worn by the bride. Narrow tucks gave a yoke effect and lace daisies trimmed the Victorian collar.

The cuffs of the long, full sleeves and the court train of the floor-length skirt. A fingertip veil of silk illusion was held in place with a wreath of orange blossoms. The bride carried a nosegay of white daisies.

The attendants were Miss Cindy Hall, maid of honor, and Miss Karen Althardt and Miss Korliko, bridesmaids.

They were dressed in powder blue organza gowns with Empire bodices and jewel necklines. White Venise lace trimmed the sleeves and the bodices and they wore matching blue organza Camelot bouffants.

In an effort to stimulate sales, the Triangle Heating and Air Conditioning Co. today announced an extension to its pre-season special on Chrysler Air-Temp Central Air-Conditioning equipment.

The special has been in effect since February on the 1971 models. A slow response in the past 6 weeks prompted the extension, therefore, all future installation orders accepted by April 15, 1971, will carry the \$50.00 Pre-Season Discount. Interested parties may call day or night at Triangle Heating Co., Day 707-0686 or Night 931-3219.

## Offbeat Shows On Culture Will Feature Midwest

Jean Shepherd, a modern-day Mark Twain, will begin telling his tales celebrating common American culture in "Jean Shepherd's America," his first television series, to air 7 p.m. Sundays beginning this week on Channel 9.

Shepherd and a crack videotape crew traveled across the country producing the half-hour programs, with offbeat titles such as "One Man's Version of Heaven is a Super Howard Johnson's with 26 Flavors and No Lines for the Rest Rooms. Mine is a Fast-moving Stream."

The America that Shepherd catches is our fads and follies, our national idiosyncrasies. He celebrates the obvious, everyday parts of our environment—things like billboards, the hot dog stand in the beautiful natural setting, and trailer parks and turnpikes.

Shepherd, actor-producer-writer, whose stories have appeared in most major magazines, calls his programs a "profound and humorous view of the underbelly of American culture." His series is a completely new concept, taking life just as it happens, enjoying every moment.

First program in the series "The Phantom of the Open Hearth Lives—Somewhere in Indiana"—will be telecast at 7 p.m., Sunday, on Channel 9.

# What is Title Insurance?

Most kinds of insurance explain themselves. Most insurance protects you against the costs of a specific risk, such as theft of your car, a fire in your home, a collision, and so forth.

But title insurance. What does that do? Well, for one thing, we cover many risks, not just one. We cover claims arising out of events that have already happened.

Real estate titles are the subject matter of title insurance. Real estate is one of the oldest, most precious and most basic forms of wealth. Many laws have been enacted to protect ownership of real estate. The owner who is selling you property has very strong rights, as do his heirs. But so may others, in addition to the owner, have rights in the property, such as governmental bodies, contractors, unpaid judgment creditors and others. Such parties are, in a sense, past owners.

### WILL YOU GET CLEAR TITLE?

It is most important that you do. Before you can, you must be informed of such claims. And you must be protected against undiscovered claims. As securing a deed for the Brooklyn Bridge does not necessarily make it yours, so acquiring a deed for a home or commercial site may not make it yours either. A title and a deed are not the same thing.

### HOW DO WE DISCOVER CLAIMS?

By a search of the public records. These records are scattered in the County, City and Federal offices. We and our agents keep track of most of them every day on every parcel of land in your area. We and our agents find and report the results of our searches to you. This is the first benefit you receive when title insurance is ordered. But it's not the only one.

### WHAT IF THERE IS A DEFECT THAT DOES NOT APPEAR IN THE PUBLIC RECORDS?

This can happen and often does. We call them the "hidden risks"; the heir of a former owner that no one knew about; the forgery or erroneous earlier deed or document affecting your property; the undisclosed divorced wife of a previous owner; a deed made by an incompetent or minor in your chain of title; clerical errors in recording documents; and other serious defects. As you see, a deed may or may not give clear title. An abstract or search may or may not be evidence of clear title.

This is where you receive a second benefit when you order title insurance. A title insurance policy protects against such dangers.

### HOW DO WE PROTECT YOU AGAINST ALL THESE DANGERS?

1. We defend your title as insured, in Court, if

necessary, at our own expense. And that is no small cost these days.

2. If the claim proves valid, we bear the cost of settling it, to keep you in possession of your property.

### ONLY ONE PREMIUM

Unlike other forms of insurance, you pay only one premium for title insurance so long as you or your heirs are in title.

### THE TEAM

We've been in the business in Illinois since 1847. That's being long on experience. We're also long on financial stability. Both of these will safeguard the title to your home, your place of business or your place of leisure.

Together with the other members of your real estate team, the lawyers, the broker and the lending institution, we can safely assure you the ownership of our most basic and precious form of wealth, your place in the sun.

Our experience and financial strength, together with the experience of the lawyer, the broker and the lender all work for you. We've been members of the team for a long time.

## Regional Report -- Construction Hiring Debated in Court

(Illinois Metro-East Industrial Development Corporation)

Charges that the Ogilvie Plan for involving black workers in the regional highway construction industry is a failure, both practically and legally, were made by contractors and labor unions in a trial in the United States District Court in Springfield.

The suit, filed by the Southern Illinois Builders Association and the Southern Illinois Contractors Association against Gov. Ogilvie and other state officials and against several labor organizations, challenges the legality of the state highway labor plan.

Harold Gruenberg, counsel for the Cement Masons, Iron Workers, and Operating Engineers, testified against the Ogilvie Plan, indicating that it discriminates against union members and violates the Civil Rights Act.

The builders asked the District Court to rule that their agreements with the unions take precedence over the plan, that union members be legally bound to work with trainees and journeymen under the plan, and that the hiring sequence in the plan be declared invalid.

The executive committee of the Illinois Arts Council is studying a proposal to give \$50,000 to help finance the 1971 Mississippi River Festival.

The executive committee has the authority to act on the proposal without taking the decision back to the full council. If the action of the committee is positive, \$100,000 will still have to be raised from other sources.

The controversial proposed rezoning of a 25-acre tract of land in St. Clair County for a shopping center will be studied by an outside consultant, the St. Clair County Board of Super-

visors decided.

The consultant will make recommendations after studying the proposal and after hearing the arguments of both proponents and opponents. Nearly 2,000 St. Clair County residents have signed petitions either for or against the proposed rezoning.

The American Zinc Co. refinery in Saugey, which will be closed later this year, is now one of the few remaining principal assets of this St. Louis-based company.

American Zinc has announced that most of its facilities and property, including those plants in Tennessee and in Hillsboro, Ill., will be sold to the American Smelting and Refining Co. Eastern American Zinc sold its subsidiary, American Zinc Sales Co., to the Texas Gulf Sulphur Co.

The apparent low bid on a proposed new Collinsville sewage treatment plant and interceptor sewers was nearly 25% over the cost estimated by the project engineer. The lowest bid received on the estimated \$3.6 million undertaking was for \$4,489,000 by S. M. Wilson & Co. of Granite City.

A multi-alarm fire destroyed part of Rock Junior High School in East St. Louis, scene of four fires in recent months. Most of the \$500,000 worth of damage to the building and contents is covered by insurance. Firemen suspect arson.

The southwestern Illinois Metropolitan Area Planning Commission has joined a number of other area organizations in endorsing the National Park Service plan for a park and industrial complex on the East St. Louis riverfront.

The village of Hartford has installed a water well treatment plant.

Southern Illinois University announced the total University contribution to the Mississippi River Festival. One-third of the \$353,000 spent to operate the Festival during two seasons was paid by SIU.

The remaining \$562,000 came from ticket sales, private subscriptions, foundation grants, student contributions, and profits from parking and food concessions.

In addition, SIU prepared a multi-use site for the Festival at a cost of \$995,000. The Festival site is used for several university functions, including commencement ceremonies and student activities, as well as for the Mississippi River Festival itself.

A 130,000-square-foot addition to the Alton plant of the Owens-Illinois glass plant was announced. The new space will allow a modern straight-line inspection and selection system for the glass furnaces. Work has started on the expansion, which should be completed by January 1972.

A federal study of the possible removal of railroad facilities from the East St. Louis riverfront may begin this summer. Eugene Moody, executive director of the East-West Gateway Coordinating Council, reported. The study, which would focus upon the rail lines in East St. Louis, would include all rail facilities in the entire St. Louis region.

The study would be a federal-funded pilot project for improving the movement of freight and passengers in a metropolitan area. The study would cost nearly \$500,000 and would take 18 months to complete.

The Illinois Division of Highways has obtained scenic easements along the bluff side of the Great River Road north from Alton to Grafton. The easement, which generally extends to the top of the bluff, gives the state the right to determine the type of activity that may take place on the property.

In St. Clair County, an 83-acre outdoor recreation area has been donated to the county by the Peabody Coal Co. The striped land, which contains two lakes, will be developed into a county recreational park.

The permanent site of the School of Dental Medicine at Southern Illinois University has been selected. The 80-acre site is east of the current SIU-SW campus core. The new site is accessible from both Illinois Route 157 and the internal campus road system.

A hearing on alleged viola-

tion of air pollution laws involving Granite City Steel Co. must be held as scheduled, the Illinois Pollution Control Board decided. In making the decision, the board ruled against a contention that the Illinois Environmental Protection Act is unconstitutional because the prohibition against air pollution in the act is so vague and indefinite as to be unenforceable.

The board stated that the Illinois Supreme Court held that suits to prevent pollution can be filed, even though the term pollution was not defined by law.

In other air purity news, the Illinois Pollution Control Board has proposed clean air standards for this region that are at least as stringent as those in Missouri. Included in the proposal is a ban on the use of coal containing more than 1.4% sulfur, except in operations with sulfur dioxide removal equipment.

Most southern Illinois coal contains more than 1.4% sulfur. In general area news, the Blue Water drainage project south of Cahokia will be delayed for about one year; the body of Collinsville has annexed another 35 acres.

## Mystery Tape Labeled 'Top Secret' by Army

Contents of a puzzling computer tape found in the front yard of a dwelling in the 2000 block of Twenty-first Street will continue to remain a mystery, despite owners of the tape claiming the reel.

According to local police, the tape contained "top secret" information and belonged to the U.S. Army Aviation Systems Command in St. Louis. It was delivered by a police officer to officials at the Granite City Army Depot for transfer to AVSCOM.

Enclosed in a plastic case, the reel had a series of identifying numbers and a cryptic label stating—99 days—Dupli-Tape-Fwd. to Libr. The tape's appearance here still is unexplained.

Madison Man Indicted By County Grand Jury

John King, 1001 Greenwood St., Madison, has been indicted on charges of attempting murder and aggravated battery by the Madison County Grand Jury in connection with the shooting of William Huster, 24, of State Park Place, at the M & G Lounge on Black Lane on March 24.

It was one of five indictments returned by the grand jury which also exonerated one defendant. None of the others involved crimes in the Quad-City area.

## County Citizens Form Environmental Council

An exploratory discussion by residents interested in the environmental problems of Madison County has been held, attended by representatives of labor, business, government, garden clubs, and private citizens.

It was the consensus that a citizens' environmental organization is essential to promote environmental quality in the county in harmony with industrial development and urban growth.

Although no specific projects or programs were considered, it was decided that the organization could undertake the representation of the public interest before agencies such as the Illinois Pollution Control Board, and to support the efforts of elected officials to develop sound programs for improving environmental quality.

Mrs. Kay Kendall, Edwardsville, was appointed acting secretary of the organization; Marvin Mondy, chairman of the city of Alton Environmental Committee; Henry Bienecki, chairman of the Granite City Air Pollution Control Board; and Dr. George Arnold of the SIU Department of Public Administration and Metropolitan Affairs, were selected to serve on a steering committee to arrange the next meeting and to present proposals to the group on programs and organizational structure and administration.

## Day Treatment Center Would Aid Many Here

(Eight of a series on the Quad-City mental health center.)

A Day Treatment Center has been proposed as a community treatment facility providing intensive psychiatric, psychological, social and activity services to individuals in the Quad-City catchment area of Madison County who are suffering from emotional illness.

This program would be offered on a 9 a.m. to 5 p.m., five-days-a-week basis, with patients living at home with their families in the evenings, on holidays and on weekends.

It is felt this program would provide the following advantages to the emotionally ill individual:

1. Intensive treatment in the patient's own community, ruling out separation from family and friends.

2. Useful Life in Society

3. An intensive after-care program for patients discharged from Alton State Hospital, aiding them in their adjustment in returning to society and preventing unnecessary and costly readmissions to the state hospital.

4. Prevention of total hospitalization at a state institution and the associated trauma of leaving family and community.

This program would be beneficial to people with a variety of emotional problems, including depression, anxiety neurosis, drug addiction, alcoholism, emotional crisis caused by severe marital problems etc.

The treatment center would make use of any variety of therapeutic approaches which would be consistent with the needs of the individual enrollee.

These therapy approaches would include chemotherapy, group therapy, individual psychotherapy, activity therapy, recreational therapy and programs dealing with mental health, such as

guest lectures, films, vocational counseling, socialization and role-playing.

The need for a day treatment center program is demonstrated by the following:

1. There are five patients enrolled in a one-day-per-week maintenance day program who are desperately in need of a more intensive type of program. These five run a high risk of hospitalization or hospitalization if a more intensive program is not provided.

2. There has been excellent cooperation from the community in locating a facility, free of charge, to house the program.

Offered at Alton Center

3. A similar program, offered in Alton under the administration of the Alton Clinic, in the last two years served 52 patients from the Granite City catchment area, 43 of whom were hospitalized.

Many have terminated from the program because of transportation difficulties and many are reported to have been unable to participate because of the distance of the program from their community.

Alton is approximately 20 miles north of Granite City, with little or no mode of public transportation.

The transportation problem would, in most cases, prevent patients from Granite City area resident from participating in the Alton program. Six patients from Granite City are enrolled in the Alton program.

4. The administrator of the Alton Clinic has promised aid and consultation of his day treatment staff in setting up a day treatment program in the Granite City area.

State, Local Referrals

Referrals to the program would be accepted from state institutions and community agencies.

The local center would seek to reach an agreement with Specialized Services and/or the Win Program to aid in transporting in-patients of Alton State Hospital to participate in the day program.

The program would be geared to handle approximately 30 patients, with enrollment of from six to 12 weeks.

The day treatment center would serve as a back-up or supplemental treatment resource to other clinic programs.

Therapists on Staff

To staff the program, it is anticipated there would be:

A. One occupational therapist.

B. One psychiatrist (two hours per week).

C. One psychiatric nurse.

D. One psychiatric social worker (master degree level).

E. One activity therapist.

F. One psychologist.

There has been a social worker student in training at the clinic who has extensive experience in mental health services, both out-patient and in-patient, and who has been an employee of the Day Treatment Center in Alton.

Funds necessary for operation of the program have been estimated at: occupational therapist, \$7,000; psychiatrist (two hours per week), \$3,640; psychiatric nurse, \$9,000; psychiatric social worker, \$12,000; psychologist, \$13,000; activity therapist, \$6,000; commodities, \$2,000; contractual services, \$2,500; part-time secretary (eight hours per week), \$600; and travel, \$500; total, \$56,740.

**PERPLEXING PROBLEM** confronting the Rev. Wendall Garrison of Suburban Baptist Church, at left, and the Rev. William D. Fester of Nameoki United Methodist Church, is distribution of 22,000 free copies of the New Testament to be delivered by volunteers to Quad-City homes on Sunday, April 18. ## 'Because of My Efforts, Someone Else Will Live in Freedom...'

(The following is one of two orations by Gary Keibel, son of William Keibel, a Press-Record printer. The talks were presented to the 16-year-old Collinsville High School student in winning the VFW local speech contest and taking second place in the state American Legion 1971 oratorical competition.)

Countless volumes have been written on the subject of freedom as every American's heritage. It seems to me that nothing more can be said about it.

But the world's greatest writings mean nothing until they are understood and their ideas are repeated. Let me state the essence of these writings as I understand them.

Freedom to us young adults is taken for granted. Let us say that we know what freedom is, but that we have no idea of what it isn't—because we've never lived without freedom.

Freedom—American style—is what we enjoy from the time we wake up until the time we go to bed. The best example of freedom is us, each American.

We have the freedom to do whatever we want, to live as ever we want, and to live as we wish.

Our freedom enables us to serve our neighbors with the best of our capabilities. It lets us develop into individuals, and it gives us endless ways to express ourselves.

The only thing that our freedom requires of us is that we don't abuse it.

We cannot extend our freedom so that we destroy the freedoms of life, property and privacy of others enjoy. To some, this restriction may be a task, but to me it is a privileged responsibility.

I know what freedom is, and I know that it must be preserved. But what that heritage mean, and how do the two work together?

I've learned that the word "heritage" has two meanings. It is properly handed down from one's ancestors, and it is a birthright.

How can that concern me? I don't have any real property, so I can't hand it down to anyone. I don't trace my ancestry back to Washington, Jefferson or Lincoln. I can only read about Valley Forge and the American Revolution.

But I still have this heritage—freedom.

I can write whatever I want, as long as I don't infringe upon the rights of others. I can publish articles in a newspaper. I can even gather my thoughts and express my thoughts to them. I can do all of this without fear of reprisal.

People may not always agree to my way of thinking or to mine, but we still have the freedom of our heritage to agree or not to disagree.

How did we earn this right? I think that passing freedom's benefits and responsibilities from generation to generation was what meant in the first definition of heritage. But that still doesn't tell me how I've earned this right.

Maybe the second definition, that freedom is a birthright, will solve this.

I fought no one to have my freedom. What I have to do is to preserve this freedom for others as it has been preserved for me in the Declaration of Independence and the United States Constitution.

You might say that I'm born free, and that I'll die free. If I live as a free man, that includes many responsibilities. To live freely, I must be educated. I must be able to make wise moves to preserve my freedom.

When I disagree with something, I can use my freedom to speak, or I can use my freedom to remain silent. I must not, however, use my freedom for a destructive purpose.

Like any property, my heritage has to be improved and looked after or time will take its toll. This is done by another basic freedom—the right to vote.

We must carefully examine each candidate because through legislation he will be our voice in the government. We must represent us when new laws are made or when old laws are updated.

By using this privilege I, along with each American, can know that our freedom and heritage are preserved, and that it will be a wonderful gift to pass on to future generations of Americans.

We must carefully examine each candidate because through legislation he will be our voice in the government. We must represent us when new laws are made or when old laws are updated.

I may have to die for it. But my property is valuable and my birthright is sacred. Therefore, I wish to preserve and keep it.

I believe I've found the answer. This freedom—our heritage—is the family heritage that is passed on from generation to generation for everyone to enjoy.

We are all part of the family, so freedom is a part of all of us. Our job is to work together, as long as I don't infringe upon the rights of others. I can publish articles in a newspaper. I can even gather my thoughts and express my thoughts to them. I can do all of this without fear of reprisal.

### Granite Cityans Select Experienced Men To Cope with Fiscal, Service Problems

The clear-cut victory by Lionel Portell in Granite City voting Tuesday reflected widespread confidence in his ability to serve as superintendent of streets.

A member of the street department 14 years, including four years in a supervisory capacity, Mr. Portell rolled up nearly 4,000 votes in comparatively light balloting, almost gaining an actual majority over the combined votes for the three other aspirants.

Incumbent aldermen gained new terms in each of the seven wards, but by varying margins. Easiest wins were recorded by Walter Norn in the Fifth Ward, Sam Whitmer in the Second and Everett Morlen in the First.

Clyde Boyd of the Third Ward and Gerald Parney of the Sixth won by lesser but clear margins, Parney leading in all three precincts and Boyd leading at three of four polling places.

In the Fourth Ward, Alderman Claude Green carried only two of six precincts but prevailed over Joseph Kastelic by less than 100 votes in his ward total. Kastelic, retiring police detective chief, led three precincts and Wade Campbell led in one precinct.

Seventh Ward tabulations showed Alderman Emerald Dawes leading George Gordon and Carl Schoenau at three of the five polling places and Gordon winning at the other two, including one by a single-vote margin. The overall Ward Seven tally on election night listed Dawes gaining re-election by three votes, 584-581, over Gordon.

There are many ways to interpret the results, but the fact that all incumbents and Mr. Portell were re-elected by the public generally preferred experienced candidates.

At the same time, we think it is also true that citizens would like to see a new period of progress, with a crisis in municipal political careers and much greater attention to selfish joint efforts to solve the many fiscal and service challenges confronting the municipality of Granite City.

If city officials strive to overcome the status quo, to rise to new and imaginative heights of public service and achievement, the outcome of the April 6 election can be a real victory for everyone.

### Fast-Growing Nameoki Township Chooses New Leadership to Meet New Challenges

Election of Town Clerk Louis Whitsett as supervisor and Albert Bell as highway commissioner completes a transition which began two years ago among Nameoki Township officeholders.

The team which has resulted is likely to have a high degree of harmony. It has placed emphasis on attaining full value for each tax dollar expended, and also is aware of the need for additional services, including drainage improvements.

The victorious candidates ran well in most areas of the township, the new supervisor leading in eight of the 11 precincts in a two-way race, and the new road commissioner leading at nine polling places in a three-way contest.

Only in State Park Place did the candidates of the outgoing group score smashing victories over the Whitsett-Bell ticket; the margins at Precinct Four were 403-35 over Mr. Whitsett and 407-29 over Mr. Bell. State Park always had been responsive to Supervisor Briggs, who had served 16 years, and also to Mr. Strackeljah, commissioner candidate and former town auditor, who lives in the State Park area.

It will be important that the new official family give prompt attention to the matters of primary concern in State Park and all other neighborhoods. The township's 1970 census, which totaled 1,117 people in the 1970 census, a 53.3% increase over the past decade.

The group of township officers which Mr. Whitsett now heads has a great opportunity to serve the needs of Nameoki Township residents, aided by its considerable skill and knowledge and by the majority public support which was shown Tuesday.

Time is really money; you can tell by the way it slips away.

### Republic of China Outperforming Mainland In Production, Trade, Individual Income

Some advocates of recognition of Red China imply that the Republic of China on Taiwan (Formosa) is so small that it is inconsequential. It hardly exists, and perhaps should not exist, they conclude.

Having spent a week on Taiwan in 1969, we are aware of the agricultural and manufacturing progress it has made despite its relatively small population. Figures received for 1970 bear out the belief that the island is a far from insignificant part of the mainland.

Red China, after a two-year nosedive coinciding with its cultural revolution and disaster has caught up with its earlier foreign trade level of \$4.4 billion a year—1% of the world total although it has nearly one-quarter of the world's population.

Free China, by contrast, had trade of \$3.9 billion in 1970. This was \$213 per capita, or 38 times the \$5.60 per capita figure for the mainland.

Individual income on the mainland is only a third of that on Taiwan.

Industrial and agricultural production in Red China, which has been on a fast-growing trend since the 1949 occupation, has grown only 16% during the last 11 years.

Forget the past, but use its lessons to build a good future.

No matter how dearly a new car replaces one's wallet, the interior of the vehicle makes it all seem like a bargain.

An equally delicious smell emanates from some new books, such as the 1971 Tri-Cities Directory of R. L. Polk & Co. Our copy was received last week.

As impressive as the price tag (\$60) are the size (1,112 pages) and the weight (nearly four pounds).

Largest single section consists of 804 white pages presenting alphabetically the name, marital status, occupation and address of each local resident.

Husband and wife are listed together, and a minimum age of 18 is used in determining which individuals are named.

Occupying 312 green pages is the directory of households, including a street and avenue guide. This section gives numbered streets in numerical order, followed by the other streets in alphabetical order.

Residents on every street are shown along with the telephone number at each address.

A yellow section numbering 108 pages names business and professional concerns in alphabetical order under appropriate headings.

Blue pages totaling 82 are devoted to phone numbers in numerical sequence, accompanied by the name of the person or business.

Sixteen white pages offer an introduction to the book and statistical and general reviews of each municipality and inhabitants.

Rounding out the total are six cream-colored pages and two orange pages of advertisements and notices.

Let anyone think that advertising is given only scant attention in the directory, we hasten to add that nothing could be farther from the truth.

Nearly every page has two ads fitted in with the directory information—one along the top and one on the side. The Press-Record, for example, is spotlighted on yellow Page 23.

On the right top lines of the white pages, Numbers 12, 45, 77, 89, and every 32 pages after that, ending with Page 589, it also is mentioned on a nearby numbered green page.

Not a square inch of the cover lacks an advertisement. Each page of the directory is a masterpiece of design, with edges of the pages, on which two ads are stamped.

The ribbons bookmark? No, the book is an advertisement.

And the page on which general abbreviations are used in the directory, we hasten to add that nothing could be farther from the truth.

## Seek Stable Building Pay, Prices

(U. S. Department of Labor)

President Nixon's order establishing a cooperative program for stabilizing wages and prices in the nation's construction industry also reinstated the Davis-Bacon Act. He had suspended the Act on Feb. 23 to help alleviate the inflationary spiral in the construction industry.

Citing the industry's wage increases, rising costs and an unemployment rate nearly double the national average, the President said the action he has taken will:

Provide a framework within which management, labor and government can work together in limiting the dangerous consequences of continued wage and price inflation in the construction industry.

Continued expansion, he declared, "can lead only to less building, to continued unemployment and to further distortions in the practices of the industry and in the economy of the nation."

Signed under authority of the Economic Stabilization Act of 1970, the presidential directive established a tripartite Construction Industry Stabilization Committee to assure general conformity of any increase in any wage or salary in the construction industry to the provisions of this order.

The 12-member committee will be composed of four representatives of labor, four of management and four of the public, all appointed by the Secretary of Labor.

With the assistance of

joint credit disputes boards to be established by contractor associations and international unions, the tripartite body will review all collective bargaining agreements negotiated in the construction industry after the March 29 issuance of the order.

The boards and the committee will determine whether future negotiated wage agreements will be subject to the Davis-Bacon Act federal-labor-assisted construction.

Agreements that violate the criteria, President Nixon asserted, "shall be disregarded in making determinations under the Davis-Bacon Act."

The executive order also sets up a committee on construction to develop criteria for determining the "acceptable level" for prices in construction contracts as well as the "accepted level" for compensation, including bonuses and stock options, that are not subject to terms of the collective bargaining agreement. The Secretary of Housing and Urban Development will select members of this committee.

"The operation and success of the order," the President said, "will rest largely on the determination of the committee on construction and the mutual understanding of labor and management in the industry whose future is now being undermined by its own excesses."

### Seek 24th Street Track Removal

APRIL 8, 1921

The newly created Granite City park board has selected J. R. Kefauver as president. Other elected commissioners are John W. Costley, M. G. Stane, William Schooley and William Milton Worthen. Arthur C. Davis will be secretary. Frank F. Williams, J. B. Harris attorney and W. W. Keibel, engineer, are members of the board. The city council has agreed to transfer to the board the right-of-way of that the belt line menace can be eliminated.

It is planned to use north and south 24th Street for a parkway if removal of the tracks can be achieved. The Commercial Club has gone on record as endorsing the action. The park board has appointed Ernest Sieveking as caretaker of Triangle Park at Niedringhaus Avenue and 21st Street. The park district also will take over the playgrounds for children which were created by the city and which are operated by the Industrial YMCA.

## Interest Collected on Income Tax Payments Not Mailed by April 15

(Internal Revenue Service)

Q If I file my income tax return by the April 15 due date, but do not pay the balance due, will I have to pay interest?

A Yes. You must pay interest at the rate of 6% a year on taxes not paid by the due date.

In addition, a penalty of one-half of 1% is imposed for each month or part of a month beyond the due date (determined with regard to any extension of time for filing) that the tax remains unpaid.

The maximum penalty for late payment is 10% of the tax.

Q Are life insurance premiums deductible as a medical expense on my income tax return?

A No. Premiums on life insurance policies, as well as those providing reimbursement for loss of earnings or accidental loss of life, limb, sight, etc., cannot be included in medical expenses.

Q I have two jobs and use my car to drive from one place of employment to another. Can I deduct the cost of operating and maintaining

my car for this purpose as an employee travel expense?

A Yes. If you work in two places in one day, you may deduct the expenses of getting from one place to the other.

However, if for personal reasons, you do not go directly from one location to the other, you may deduct only the amount you would have cost you to go directly from the first place of employment.

Q I bought a new car in March 1966 and used a 10-year estimated useful life in computing my depreciation. Last year, I traded it in for a more expensive one.

Do I have to add my prior-year investment tax credit to my 1970 tax liability?

A You will have to compute the credit you took on the old tractor using the actual 4-year useful life.

Since you traded for a new tractor that would have qualified for an investment credit had the law not been repealed, you may compute a credit on the new tractor.

However, the credit on the

new tractor may only be used to reduce or cancel that part of the credit on the old tractor that is to be added back to your tax.

For more information, see Publication 572, Tax Information on Investment Credit.

Q I bought a raffle ticket for a new car. I lost the ticket. Can I deduct this as a charitable contribution?

A No. Amounts you pay for raffle tickets, bingo tickets, or other games of chance are not deductible as contributions.

Q I have gambling losses. Can they be deducted to the extent of any gambling winnings?

A Yes. If you itemize deductions on your tax return, you can deduct gambling losses to the extent of any gambling winnings.

Q Is there a change in the tax law that affects people who had long-term capital losses?

A Yes. Net long-term capital losses may be deducted from income, other than capital gains, at only 50 cents on the dollar.

Just as you would reduce a net long-term capital gain by

50% when adding it to income, you now reduce a net long-term capital loss by 50% before deducting it from income.

The maximum deduction for capital losses is the lowest of:

1) Taxable income for the year without regard to either capital gains and losses or deductions for personal exemptions (or adjusted gross income if you use a tax table).

2) \$1,000.

3) "Net capital loss."

Q I worked for two employers during 1970 and overpaid my Social Security Tax. Can I get a refund of this tax on my income tax return?

A If you worked for two or more employers in 1970 and received more than \$7,800 in wages subject to social security tax, you are entitled to claim the Social Security tax withheld in excess of \$74.40 as a credit against your income tax.

If you file a joint return, separate computations must be made for you and your wife. See page seven of the tax form instructions for details on how to compute the credit.

## Burned Theater Will Be Replaced

APRIL 8, 1946

Details of the modern and luxuriously equipped new Washington theater, which is replacing the structure that was gutted last winter, were outlined today in an interview with Harry Swan, city manager for the St. Louis Amusement Co., and Raymond G. Johnson of Granite City, associate architect for the project. It is estimated the cost of the improvement will exceed \$150,000.

Mr. and Mrs. Ted Johanneper and children, Iris and Don, of McClelland Avenue visited the Poplar Bluff, Mo., with Mr. and Mrs. Clyde Bradford and children.

Mrs. Fred Schuler entered the Otis Club in her home, 2208 Lincoln Ave., Honors went to Mrs. Charles Berna, Mrs. Schuler and Mrs. Owen Davis. Mrs. Adolph Wigger invited the group to meet in her home in two weeks.

Donald Kraft, former Naval officer, suffered a broken right ankle while alighting from a Chicago train in Granite City. He was returning home to move his family to Chicago. They sold their home in Maryland Park to Mr. and Mrs. Ben Frizell.

Camping programs will be conducted by Venice Boy Scouts in connection with their next camp week. Large tents will be set up at Sixth Street and Lincoln Avenue, Second and Weber Streets and Hampden Avenue and the railroad tracks. Residents will be asked to bring their bundles of paper to one of these tents and 20 scouts of Troop One will camp overnight and give demonstrations of camping techniques. They will cook supper, breakfast and lunch, Scoutmaster August Rehms reports.

## Delinquency Study at SIU-SW Gets \$120,000

The Office of Education has awarded \$120,000 to the Delinquency Study and Youth Development Center on the Southern campus of Southern Illinois University.

The new grant will allow expansion of the training programs for personnel of correctional institutions and provide additional followup on the ongoing programs that have been started, Robert S. Gilland, administrator of the grant and assistant director of the center, said.

Gilland stated that in the two years of the program the youth corrections staff has conducted more than 50 workshops involving 400 people.

The new grant that the state institutions, however, under the new grant proposal considerations for community service programs will be implemented, Gilland said. The new grant expires June 30, 1972.

He said that the new grant will also allow the addition of Illinois, Minnesota, and Oklahoma to the training area, which now also includes Arkansas, Iowa, Kansas, Louisiana, Ohio and Wisconsin.

The content of the workshops depends on the request of the state institutions, however, under the new grant proposal considerations for community service programs will be implemented, Gilland said. The new grant expires June 30, 1972.

ALMOST ANYONE CAN COMPLETE A TAX RETURN BUT IT USUALLY TAKES A SKILLED TAX CONSULTANT TO PREPARE ONE PROPERLY.

WHERE DO YOU GO FOR EXPERT TAX HELP?

AT NIXON-ROBINSON our consultants are as careful with your return as they would be with their own. It is estimated that millions of individuals who prepare their own return make errors that slow down any refund, and use the tax table when they could itemize and save precious tax dollars.

If you go to a tax consultant will he be around after tax season to assist you if you need help? Many tax offices, especially large chains, close their offices after the April 15th deadline. Nixon-Robinson tax consultants available the year around.

**People the meter reader**

"When you buy gasoline for the family car, the man at the service station reads the meter and you pay what it says. My job is like that. I'm the one who checks once a month to see how much natural gas or electricity you've used. It's an important job because accuracy comes first. We know the meters are right—they're checked regularly. My job is to read them accurately, and I am specially trained for that job. It used to be I saw a lot of our customers before we began to move the meters outside the house for customer convenience. Now I don't see so many people. However, if I make a mistake, I hear about it right fast, because our customers know pretty well how reasonable in price our gas and electric services are, and they expect the price to be right—each month. So, I work hard at not making mistakes..."
